2045 Tech Specs

To the tech team:

Setup should be completed in the morning in preparation for a sound check, lunch break and dress rehearsal early afternoon, preferably 2-3 hours before the performance.

A **stage plan** is available on the next page. Things to consider:

We need chairs for everyone including chorus members so they can seat while not performing.

We need a table for the Korg MS2000 and the Mac Laptop.

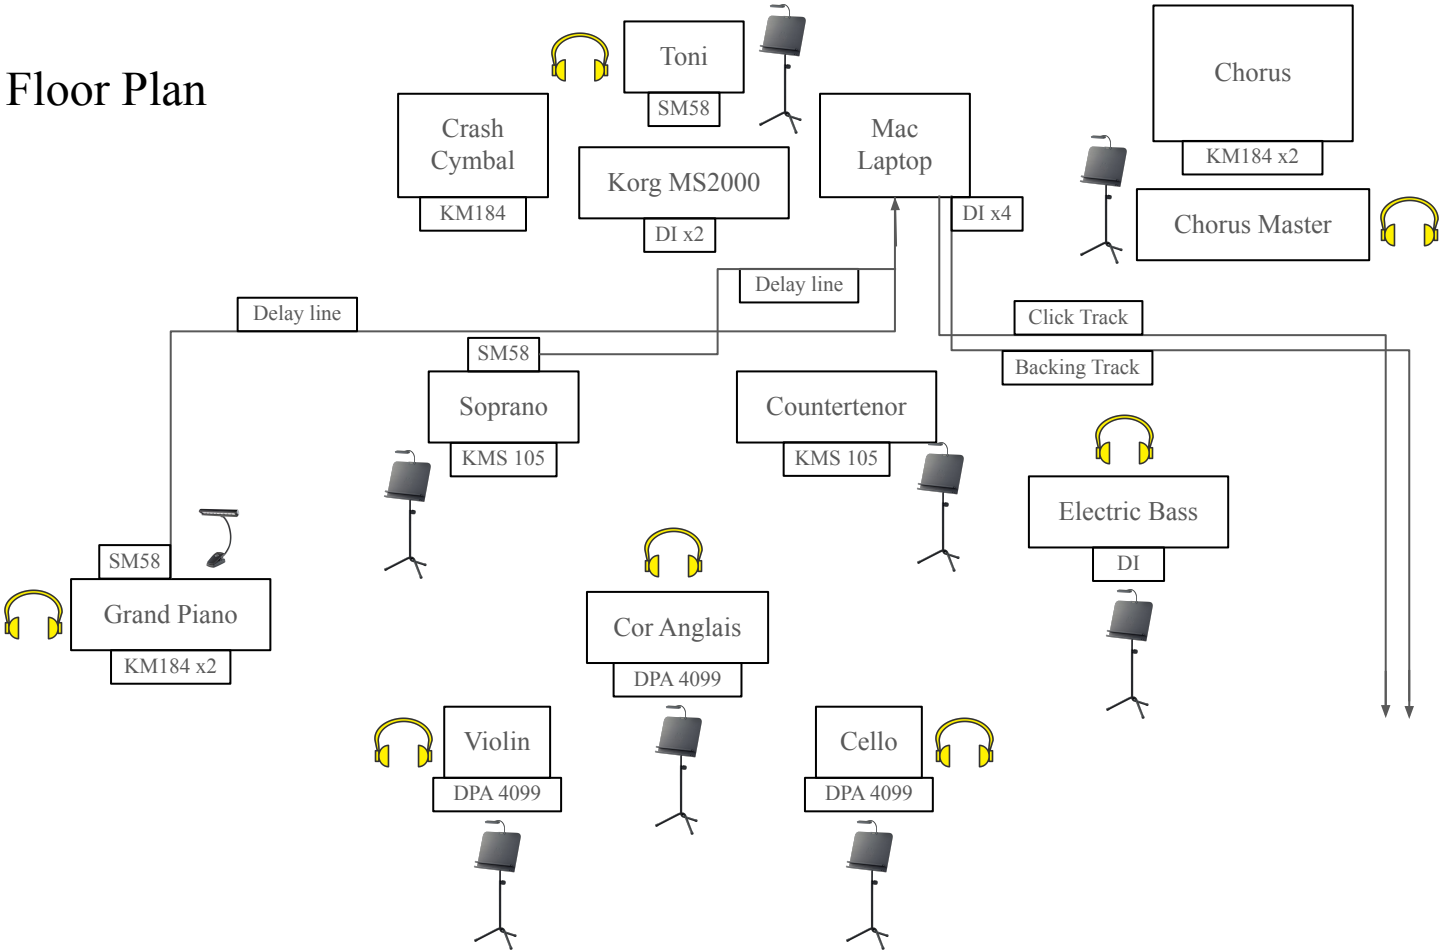
All music stands need lanterns, plus a lantern for the piano.

All musicians wear headphones except the soloist singers and chorus. The chorus master wears headphones.

ALL MUSICIANS have the same headphone mix, which includes the backing track, live instruments plus Click Reference Track.

The piano and soprano have a SM58 each to be used as a delay line.

2045 Floor Plan



2045 Channel and Microphone List

Channel	Name	Mic	Notes
